4M OR 6M OUTDOOR GREEN COMMERCIAL PRE-LIT CHRISTMAS CONE TREE, RUBBER CABLE WARM WHITE LED

4m and our 6m towering cone Christmas tree is the perfect way to make an impressive statement during any home or commercial display, spread the joy to a crowd, or simply ramp up the Christmas cheer at home. There's no need to look any further than this soaring professional pine.

These trees itself are embellished with over 19,000 or 48,000 individual PVC tips and 2,000 or 4,000 sparkling LED lights which are professionally "tied" into the foliage.

This process is carried out by our own skilled operatives, who not only space the LEDs evenly around the entire tree surface but also hide all wires for a truly professional finish. Within the body of the tree is a discreet doorway, making it easy for you to access inside and manage electrical wires or weatherproof boxes to keep your tree looking professional.

Available in both white and warm white, this tree can be powered by selecting our large 31v transformer kit which includes a controller boasting 8 different functions, including: Combination, In Waves, Sequential, Slow-Glow, Flash, Slow Fade, Twinkling, and Steady On. Each time you switch the lights on, the in-built memory chip will automatically select the last function used.

This tree is supplied fully constructed in 2 or 4 sections which locate together and secure with metal brackets. The proportions of the tree make it very sturdy.

4MM OR 6M OUTDOOR GREEN COMMERCIAL PRE-LIT CHRISTMAS CONE TREE, WARM WHITE LED
